LOW PROFILE MOBILE SINGLE COLUMN LIFT

Single column mobile style lift features fully adjustable arms and is designed to work on smooth surface. This lift conveniently rolls under the vehicle or uses the unique drive over design to easily position lifting points. A great addition to ANY garage.

**Model #
HSC-6000**

- Mobile lift uses “pallet jack” style hydraulics to raise lift onto wheels
- Rolls right under vehicle or use the unique drive over design to easily position lifting points
- Thick 13” x 10” column
- Chain over design uses a 3” x 36” cylinder and 846 leaf chain
- 2 sets of 4ea drop-in height adaptors 2”(4) & 4”(4)
- Single point lock release
- Powder coat paint finish

Low profile “Drive-Over”
ramp & frame

Low profile “double
telescoping” screw pads
