

The B956 Wheel Balancer was designed with the operator in mind. This super-duty computerized balancer is highly accurate and reliable and widens tire balancing capacity.

Model #
B956

Accessories Included

- ❖ 4 Cones Ranged 1 3/4 - 5 1/2
- ❖ Threaded Shaft
- ❖ Measuring Caliper
- ❖ Calibration Weights
- ❖ Operational Manual
- ❖ Heavy-Duty Quick Nut With Plastic Cup

Specifications

Max. wheel weight	- 165 LBS	Rim diameter	- 8" – 28"
Motor power	- 110V	Rim width	- 1.5" – 20"
Balancing accuracy	- 1 gr	Max. wheel diameter	- 44"
Cycle time	- 5-7 sec.	Shaft diameter	- 40mm

Standard Accessories Included

Optional - Tire lifter

Features

- User Friendly Operation** – LED, touch-panel keypad with easy to read icons assisting operators utilizing all balancing functions.
- Large Rim Diameter Balancing** – able to balance up to 28" rim diameter & 44" overall wheel diameter.
- Multi-Mode Vehicle Balancing** – standard with SUV, Car & Motorcycle balancing modes.
- Low-RPM Operation** – At 140 RPM, the balancer's life is further extended for sensitive electronics & moving components, all while providing highly accurate wheel balancing.
- Ease-of-Use** – with manual measurement input for distance & diameter with 5 balancing modes including 2 ALU Smart modes
- Exclusive Laser Indicator** – lights up automatically at the unbalance weight position under ALUS mode in the 6 o'clock wheel position
- Integrated Measurement Acquisition Wand** – allows for ease of acquiring measurement data with a retractable stylish measuring tool, integrated into the machine.
- Light Indicator** – illuminates inside of wheel automatically at the unbalanced weight position, for improved wheel weight applications.
- Foot Pedal Braking System** – conveniently secures the wheel in the unbalanced position to accurately apply balance wheel weights.
- Extra Long, Heavy Duty Balancing Shaft** – the 12" long, 40mm diameter balancing shaft accommodates wide range of wheels, including unique aftermarket wheels of different sizes & shapes.
- Speed-Nut Mounting** – the speed nut allows for quick & efficient wheel mounting, easily securing the wheel to the spindle with convenient lead-in screw.
- Multi-Pocket Wheel Weight Shelf** – 14 articulated pockets, over 1.5" deep, allowing plenty of storage for weights & tooling.
- Large Wheel Shroud** – the large 38" wheel hood prevents debris from flying off the tire while in use.
- Power Saving Mode** – automatically puts machine in stand-by mode after 5 minutes of non-usage.
